Dean's message

Dear GAME members,

I hope this email finds you in good spirits and that you enjoyed a wonderful start to the new year.

Firstly, I would like to extend my heartfelt gratitude to Professor Christina Mitchell and the team of Monash University for their well-orchestrated arrangement at the Annual Meeting in Melbourne last November. I am also grateful to Professor James Whisstock, who chaired the GAME for Medical Research, and Professor Michelle Leech for her valuable insights on the future of medical education. Their collective efforts resulted in a truly invaluable experience for all involved.

In 2024, CU Medicine had the privilege of hosting the 6th Transnational Educational Initiative (TEI), known as GAME-TEI Summit for Future Leaders 2024, held from 11 to 13 November 2024. This Summit marked a significant milestone as the programme was, for the first time, open to non-GAME universities, expanding opportunities for cross-institutional collaboration and knowledge sharing. This inclusive approach not only enriched the experience but also fostered a more diverse and comprehensive dialogue among participants. It was an honour to have more than 100 academics and students join this Summit, and I trust that students who actively participated in the Summit have built a strong community among their peers and will contribute positively to the global health system in the future.

In closing, I wish each of you continued success in 2025. Your dedication and commitment to our shared objectives are commendable, and I am confident that we will continue to achieve great things together. Thank you once again for your support and I eagerly look forward to meeting all of you at the upcoming annual meeting in June.

Warm regards,
Philip Chiu

Professor Philip WY CHIU
MBCChB (CUHK), MD (CUHK), FRCSEd (Gen), FCSHK, FHKAM (Surgery)
Dean, Faculty of Medicine
The Chinese University of Hong Kong

The 8th GAME Annual Meeting

The 8th Annual Meeting of the Global Alliance of Medical Excellence (GAME) was held in Melbourne on the 7th and 8th November 2024. The meeting was kick-started with an indigenous smoking ceremony to welcome all delegates to Australia. Professor Christina Mitchell AO, Executive Dean of Monash Medicine, Nursing and Health Sciences at Monash University, hosted the opening ceremony and greeted participants from all over the world.

On the first day, delegates from partner universities gathered to actively engage in various discussion topics on medical research, ranging from AI in Medicine, neurodegeneration, gastroenterology to Reflections on Shaping the Future in Medical Education and AI in Medical Education Hype and Reality. It was followed by a tour of Monash University's flagship facilities – the Centre of Anatomy and the ARMI FishCore facility of the Australian Regenerative Medicine Institute, where strategies for medical education in the 21st century and cutting-edge zebrafish facility for biomedical research were showcased.

GAME delegates engaged in a strategy discussion session on the second day of the meeting. They exchanged invaluable insights and opinions regarding

▲ Smoking ceremony to welcome GAME members

strategic priorities and future directions for GAME, medical education initiatives, ranking, expansion of GAME membership, etc. Education-focused delegates joined a tour at the Victorian Heart Hospital to visit the teaching spaces and simulation labs, while research-focused delegates gained a deeper understanding of the Monash technology platforms and met with the researchers in their areas of expertise. The event concluded successfully and achieved significant progress in medical research and education, unveiling new opportunities for future collaboration and growth.

GAME-TEI Summit for Future Leaders 2024

Hosted by the Faculty of Medicine at The Chinese University of Hong Kong, the 6th Transnational Educational Initiative (TEI) known as GAME-TEI Summit for Future Leaders 2024 successfully took place from 11 to 13 November 2024, attracting participants from 13 institutions, comprising over 100 academics and students.

Inaugurated by Nagoya University in 2019, this year's GAME-TEI marked a significant milestone as the programme was open to non-GAME universities, thereby broadening the scope for exchange and knowledge sharing. Participating GAME institutions included the University of Bologna, Korea University, Ludwig Maximilian University of Munich, Lund University, Monash University, and Nagoya University. Non-GAME institutions included The Chinese University of Hong Kong (Shenzhen), Guangzhou Medical University, Macau University of Science and Technology, Ningbo University, Fudan University, and Peking University.

The theme of this year's Summit was "Inter-Cultural Co-Creation in Planetary Health, Healthcare Professional Education, and Entrepreneurship". The keynote speeches delivered by experts from various countries were insightful and dynamic.

▼ Student Presentation Competition

▲ Poster Presentation

In addition, the Summit featured team-building activities, poster presentations, group discussions on AI in medicine, a panel discussion and a visit to InnoCentres located in Hong Kong Science Park. Students actively engaged in intensive group work and presentations, establishing a robust network of peers and mentors to support their ongoing growth and development as future leaders. The Summit showcased the edges in healthcare education and research in Hong Kong and we look forward to seeing all our participants again in future GAME events.

The 7th GAME strategic meeting

The next strategic meeting will be held on 4 February 2025 to update the progress of the research projects and new initiatives. If you would like to propose any discussion items, please contact Ms. Luka Luk (luka.luk@cuhk.edu.hk) or Ms. Dorothy Lee (dorothylee@cuhk.edu.hk).

The 9th GAME Annual Meeting

The University of Nottingham will be hosting the next GAME meeting on 2-3 June 2025. Please save the date. Further details will be announced later.

GAME-TEI Summit 2025

The next TEI Summit will be hosted by Monash University at Monash Prato Centre on 22-24 June 2025. More information will be provided in due course.

More information will be provided in due course.
